

## **Doctoral Dissertation Advisory Committee**

The Doctoral Dissertation Advisory Committee must meet these requirements.

- The committee shall consist minimally of four members. If there are co-chairs, the committee must consist of five members.
- The committee chair must hold a tenure track/graduate faculty appointment in the department of biomedical engineering. If the committee chair holds a tenure track appointment in other department, the committee chair must either fill the adjunct advisor memo or appoint a co-chair from the department of biomedical engineering.
- A majority (greater than 51%) of committee members must have graduate faculty appointment. The graduate faculty appointment roster is maintained by the graduate school and is available at <http://gradschool.wayne.edu/current/roster.php>.
- The committee shall consist minimally of two members with the graduate faculty appointment from the biomedical engineering available at <https://gradschool.wayne.edu/faculty/graduate-roster?department=Biomedical+Engineering>.
- The committee also must have an external member.
